RDD Pigtail Lockit Strain Relief Bushings

Perfect for protecting electrical components from forces of push, pull and twist.

Lockits require no clumsy hand tools for panel insertion – just fingertip pressure.

RDD (round Double “D”) these new RDD lockits fit into standard double “D” holes, round holes with 2 opposing flat sides. The flat sides prevent the lockit from turning in the hole and prevent any stress from twisting the wires.

Features and Benefits:

- ◆ Adds reliability, longevity and safety.
- ◆ Securely anchors, insulates and protects cables at panel entry points.
- ◆ Integral nylon spring eases the cable into a lazy bend; prevents sharp bending and assures longest cable and product life.
- ◆ Assembly friendly! Independent of insertion into the panel, self-lock onto the cable. **May be preassembled off-line for final assembly at a later time or remote location, for lower installed cost.**
- ◆ Black, white and custom colors are available.
- ◆ Designed to pass CSA’s 50,000 cycle “Vacuum Cleaner” test (C22.2 No. 67)
- ◆ Passes UL’s 859 specification for Household Electric Personal Grooming Appliances “Cord Flexing Test”
- ◆ 94V-2 Flame Rating
