

CAGE NUTS

Cage nuts are the perfect combination of spring steel fastener (cage) and multi-threaded nut, providing a powerful attachment.

Before installing the mating bolt, cage nuts hold in place, withstanding assembly line vibrations. As the bolt is tightened, the cage keeps the nut from turning, enabling standard proof loads. Thanks to extra space between the nut and cage, cage nuts can accommodate slight misalignments.

Cage nuts are ideal for blind assemblies.

FEATURES & BENEFITS

- ▶ More secure for materials too thin or too soft to be threaded
- ▶ Holds in place during assembly, withstanding vibration
- ▶ No special tools required for installation or removal
- ▶ Easy to disassemble for servicing
- ▶ .025—.250 panel thickness
- ▶ 6-32 to 1/2-13 and M4-0.7 to M12-1.75
- ▶ Cage nuts can be applied at any spot on the assembly line

COMMON APPLICATIONS

- Appliances
- HVAC equipment
- Lighting
- Data and telecommunication equipment racks
