

GRIPtide™ LEVELING LEG

Using GripTide™ in Diverse Applications

The GripTide™ Leveling Leg provides superior strength and quality to leg-leveling studs found in furniture and appliances.

FEATURES AND BENEFITS

- ▶ Features a Tap-R Tapping feature on the end of stud to tap into sheet metal
- ▶ Hex socket on bottom of stud
- ▶ Plastic hex washer design
- ▶ GripTide feature on stud to assemble plastic foot to stud
- ▶ Self alignment feature on Tap-R allows initial installation ease
- ▶ Hex on bottom of stud allows for better control on the line when driving the self tapping screw
- ▶ Plastic foot can be shaped to suit customer needs both in material and in geometry
- ▶ No scratch surface keeps customers happy when moving across floor
- ▶ Easy wrench adjustment

THE COMPETITION

- ✗ Expensive secondary process to manufacture tapping feature
- ✗ Difficult to align tapping feature into tapped hole
- ✗ Welding process leaves protrusions on the bottom side of hex
- ✗ Difficult to drive during install
- ✗ Adjusting large hex can be difficult in the field
