

NYLON BANDING SOLUTIONS

Perfect Blend of Strength & Flexibility!

SMART® BAND STANDARD

Smart® Band Standard is a non-metallic band and buckle system. It is a highly intuitive product making it very easy to fit. It is the ideal strapping solution for less aggressive applications both on and offshore. It is often used in permanent and temporary sign & street furniture fixation.

Smart® Band Standard system is available in a variety of materials, sizes and reel lengths. It offers long-life and non-corrosive properties, making it the ideal alternative to many high grade stainless steel strapping solutions.

SMART® BAND HYBRID

Smart® Band Hybrid is a premium high strength composite polymer based band and buckle system. With a range of installation tools including the high speed 3000 pneumatic tool the Smart® Band Hybrid is the ideal solution for many offshore & subsea applications including cable protection, Strake attachment & piggyback line installation.

Smart® Band Hybrid is typically used as an alternative to high grade corrosion resistant alloy strapping solutions such as Inconel 625, Monel & Titanium. The Hybrid system combines a number of excellent qualities such as its high strength, ease of use, high retention and relaxation properties and its long life, to provide the ideal strapping solution for offshore & subsea use.

APPLICATIONS

ONSHORE

- ▶ Cooling Towers
- ▶ Processing Plants
- ▶ Sign Fixing
- ▶ General Industry

OFFSHORE

- ▶ Marine Pile Protection
- ▶ Oil Rigs
- ▶ Subsea Marking
- ▶ Cable Protection
- ▶ Piggyback Pipe Lay
- ▶ VIV Strakes
