

## PLASTIC CLAMPING SOLUTIONS

Perfect Solutions for Non-Conductive & Non-Corrosive Application Requirements!

### HERBIE CLIP® PLASTIC (NYLON) HOSE CLAMP - DOUBLE GRIP

The Herbie Clip® is the original Double Grip plastic hose clip. It is a quick and easy to install nylon hose clamp with exceptional strength arising from its unique double row of interlocking toothed jaws. The double row of teeth offers over twice the clamping force achieved by similar products with only a single row of teeth. No other nylon hose clamps can rival the Herbie Clip in terms of overall strength and performance. Temperature range: Nylon 6.6 -40°F to 338°F, PP -40°F to 194°F.

### EZYCLIK™-P LOW PROFILE PLASTIC HOSE CLAMP

The Ezyklik™-P (Plastic) hose clip is specifically designed for hose clamping applications where space is restricted. The unique design of the patent pending Ezyklik™-P ensures strong, fast and reliable clamping with a low profile design and fully corrosion resistant materials. Temperature range: Nylon 6.6 -40°F to 338°F, PP -40°F to 194°F.

### PLASTIC WORM DRIVE HOSE CLAMP

The Plastic Worm Drive Hose Clamp is ideal in applications requiring a non-conductive and non-corrosive clamp. It is a unique clamping product which offers the non-corrosive features of a plastic clamping product combined with the strength of a metal worm drive hose clamp product.

#### APPLICATIONS

- ▶ Agricultural
- ▶ Automotive
- ▶ Hydro Massage
- ▶ Irrigation
- ▶ Pharmaceutical
- ▶ Vending
- ▶ White Goods
- ▶ General Industry
