

SMOOTH CONTROLLED MOTION PROVIDED WITH QUALITY DAMPING SOLUTIONS

EFC International is a premier supplier of motion control dampers and latches.

FEATURES & BENEFITS

- ▶ Guaranteed smooth controlled opening and closing of mechanisms
- ▶ Absorb and slow down motion to decrease vibration, noise and machine component wear

ROTARY DAMPERS fasten to or snap into a panel configuration and give dampening motion for several automotive interior applications.

LINEAR DAMPERS provide a smooth linear motion. They are available with dampening in one direction while allowing free run in the other and dampening in both directions.

AIR DAMPERS provide damped, linear motion in one direction while allowing free motion in the other.

HINGE DAMPERS are rotary dampers that mount at the hinge point and are designed to fit into small spaces.

LATCHES snap into a given panel configuration and provide dependable latching and unlatching.

Applications:

- ▶ Glove Box
- ▶ Cup Holder
- ▶ Grab Handle
- ▶ Middle Arm Rest
- ▶ Truck Cover
- ▶ Sunglass Compartment
- ▶ Make-up Mirror
- ▶ Overhead Console
- ▶ Computer Docking Stations

EFC is happy to support you in identifying a solution for your individual project.
