

## STANDARD TRIM CLIPS

### Perfect for Quick Assembly & Disassembly Without Tools!

Standard Trim Clips are excellent general-purpose fasteners. They are ideally suited for trim strips, access plates, or any light application where removability is important. Standard Trim Clips are designed for use over rectangular studs or integrally molded blades ribs. Insertion and pull-out forces vary depending on the mating panel hole configuration, panel thickness and finish. EFC also offers other trim clips for specialty applications. If you are looking for a reliable snap fit design for your application, we'll provide it.

### FEATURES AND BENEFITS

- ▶ Designed for use over rectangular studs or integrally molded blades, ribs, etc. on trim strips, access plates or any light application where removability is a factor.
- ▶ The self-equalizing retaining legs are formed into a dart-type configuration for easy mounting and assure a snug, rattle-free installation.
- ▶ Will yield to deliberate removal force applied to the trim or plate.
- ▶ Parts are hidden - provides for unblemished exposed panel surfaces.
- ▶ Easily installed - snap together in seconds without tools.
- ▶ Serviceable - parts disassemble easily and reliably  
(Note: Excessive removal can cause some degradation to mating panels.)
- ▶ Ideal for trim applications, close-out applications, vending, ATM, specialty furniture applications.
- ▶ Insertion and retention performance is dependent on component attributes and material.
- ▶ Comes in several different design variations.
