

## UNICLAMP®

Perfect for constant, leak proof prevention for low pressure applications

The wide band width insures improved clamping action without hose damage. This is a true low cost solution for high volume production.

EFC International offers constant tension hose clamps with material finishes for virtually every application.

### FEATURES & BENEFITS

- ▶ Reusable
- ▶ Easy to Install
- ▶ Low Cost
- ▶ Low Profile
- ▶ **Wide Band Width** insures improved clamping without hose damage

With the rising cost of steel and price increases, please feel free to utilize EFC's clamping expertise to identify the most cost-effective clamping solution available! EFC offers technical support, inventory programs, convenient release quantities and outstanding customer service, as well as, a means to consolidate your supplier base.
